21 02.2019 № 01-23/92

Г Customs Administration  
of the Czech Republic

Institute for Nuclear problems of Belarusian State University makes a request to perform gas chromatographic measurements of standard water-ethanol samples of volatile compounds.

It is planned that obtained results will be used for joint publication in the profile scientific journal *Food Control*.

Application:

1. Standard samples - 9 pcs.,
2. Sampling report in 1 copy.

Deputy Director on International Collaboration

 Julia Fedotova
